

Lunch menu

WELCOME

Dear guest,

We, the Faas family, Heleen and Peter and our 3 children Anna, Bram and Dientje would like to welcome you to our cosy restaurant, situated on top of the dunes of Cadzand-Bad. Here you can dine with a beautiful view over the North sea.

Our menu offers dishes for which we use fresh, honest and healthy ingredients as much as possible. Good fats, oils, grains and dairy. We are a big supporter of sustainable fishery, animals who have had good quality of life and passionately grown biological vegetables.

Following the health trends, we make a conscious choice to serve seasonal vegetables and smaller portions of fish and meat. We serve fermented products full of probiotics, dairy substitute products and less fats and sugars. Our highest priorities are taste and using seasonal products. We keep the products as pure as possible and train our chefs to prepare them with passion and respect.

Do you have special wishes or dietary needs? Please do not hesitate to ask our staff! They will gladly help you make your choice.

We wish you a pleasant meal!

With love,

The Faas family

One of the most popular water sources in the world can be found in Germany, in the small town of Gerolstein in the Vulkaneifel. The Gerolsteiner brand was founded there in 1888. The Gerolsteiner mineral water owes its special characteristics and taste to the unique geological character of the Vulkaneifel. A mineral water of the highest quality is created here thanks to the exceptional combination of natural carbonic acid (originating from prehistoric volcanic activity) and dolomite rock, known for its richness in minerals.

HEALTHY

There are quite a few directions that the history of Kombucha shows. And there is some debate as to where the Kombucha originated from. Which we know for sure is not new and has been drunk for ages. As many sources show, the very first recipes were found in China as early as 221 BC. They called it the "immortality potion" here. From China, Kombucha eventually made its way around the world. From Russia to the US and Europe.

The Trappists of Koningshoeven experience silence as one of their core values. The silence ensures a good balance between individual and community. It promotes an openness to God, to yourself and to others so that the vocation to unceasing prayer can blossom. The friars have certain times within the order of the day, especially the night and early morning hours and certain places within the monastery where they focus more on silence.

HAVN GIN

"A safe place where you can go after a turbulent journey. A home, a shelter, a resting point. A place where people come together to tell each other their travel adventures, show each other their finds, make their plans for the next trip. Each HAVN has its character, its flavors and sounds, its culture and nature... Every HAVN sounds, smells and tastes different... typical and unique..."

PJ is a distiller who started making alcohol at a young age in a distillery in the heart of Belgium, in Leuven, and that has grown into Belfin Spirits Company. They are a distillery where craftsmanship, passion and use of local products are the main pillars of his business.
